

Project Profile

Queensland Gallery Of Modern Art | Brisbane, Queensland

Client	Queensland Department of Public Works
Client Sector	Government
Project Cost	\$70 Million
Services Provided	Estimating & Cost Planning
Architect	Architectus & Davenport Campbell

Overview

The project comprises the construction of a rectangular building to function as art gallery complete ancillary areas for receiving, handling, displaying and storing artworks.

The design features an extensive roof overhang, which together with feature screens and louvres provide effective sun shading to vulnerable facades.

The building also incorporates two small cinemas and areas for a cafe, bistro and a gallery shop.
